

COLLEGE OF ARTS + SCIENCES

DEPARTMENT OF POLITICAL SCIENCE

Darrell West Undergraduate Scholarship in Political Science

Emmett Nolan

Thank you

Thank you for supporting my education through the Darrell West Undergraduate Scholarship in Political Science. This scholarship will help to alleviate part of the cost of my tuition and allow me to focus on my studies to a greater extent. Political science is my major, and in conjunction with my minor in law and public policy (through the O'Neill School), I've been able to study the things which I'm most passionate about. Some of my favorite classes have included Constitutional Law, Communications Law, Legal History & Public Policy, and Foundations of American Political Thought.

After I graduate next spring, I hope to return to my home state of Wisconsin and work on some state campaigns and in the legislature. I plan on attending law school a few years from now in order to obtain a career in the legal profession. This scholarship will allow me to continue to lay the foundation for my career by broadening my knowledge of key concepts in political science and government, and by equipping me with the necessary reading, writing and analytical skills to find success in such a profession.

My time at IU has been incredibly meaningful. I've learned quite a lot, not only academically but also interpersonally and professionally. I certainly wouldn't be the person I am today without having attended such a great school. I thank you again for your support.
